OXIDATIVE STRESS

Oxidative Aggression
good

Antioxidant Protection
to correct

ANTI-AGING SKIN

Elasticity - Texture
bad

Aging Condition
to correct

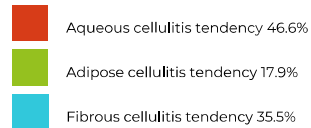

Fragility
bad

SLIMNESS

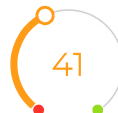

Fat excess
to correct

HAIR / NAILS

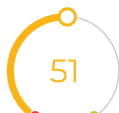

Falling tendency
to correct

Quality
to correct

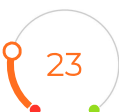

JOINTS

Flexibility
acceptable

Acid-base balance
to correct

Tissue Repair
bad

DETOX.

Sulfoconjugation index
to correct

Overall Intoxication
bad

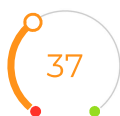

Metabolic overload
bad

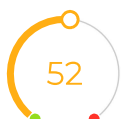

DIGESTION

Trace Mineral Assimilation
to correct

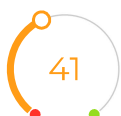

Enzymatic balance
to correct

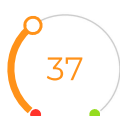

Glycemic balance
to correct

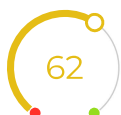

MENTAL CONDITION

Cognitive function
to correct

Emotional balance
to correct

Nervous system
acceptable

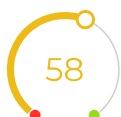

GENERAL BALANCE

Natural defenses
to correct

Hormonal balance
to correct

Cardiovascular
acceptable

Predisposition for allergies
good

OVERVIEW

Attention! The patient can have health issues linked to factors other than minerals/heavy metals; it has to be understood that the system only measures mineral and heavy metal levels in the tissue of the hand palm. Therefore a particular physiological health problem can be linked to reasons other than mineral/heavy metal issues. It has to be understood that SO-Check only measures mineral and heavy metal levels in the tissue of the hand palm. Therefore a particular physiological health problem can be linked to reasons other than a mineral/heavy metal issue.

Caution! These values are not for diagnostic purposes; these are only an interpretation of correlations between minerals & oligo-elements tested with SO-Check. These relationships have been widely documented throughout the scientific literature on micronutrients and ortho-molecular medicine. The SO-Check test is only a functional element of balance in the body.
